AI MADE EASY FOR YOUR BUSINESS

The problem

Tackle the daily work that slows you down

AI built for your industry

- ✓ We augment your existing tools (CRM, email, and document tools). We do not replace them.
- ✓ Repeatable daily work in clear steps, not a new prompt from scratch
- ✓ Same workflow every time. Enter context once, tap Continue, next app opens prefilled
- ✓ Human review before every send. Drafts only, not autopilot.

What we solve

Time · Money · Priority

- ✓ Time: hours back on documents, follow-up, and client email
- ✓ Money: clients kept when replies go out on schedule
- ✓ Priority: finish work that piles up because starting takes too long

Sound familiar?

Many teams use free ChatGPT or Copilot and still re-type every client thread

Free ChatGPT or Copilot

- ✗ Open a blank chat and explain the task every time
- ✗ Copy between document, chat, and email in separate tabs
- ✗ **Free ChatGPT or Copilot may use your prompts for training and model improvement**
- ✗ **You are tied to one provider and one personal account**

With EZ4YouTech.com

- ✓ One guided workflow: same steps with Continue between apps
- ✓ Document Analyzer → AI Email Automation in one company workspace
- ✓ **Your company workspace and your AI accounts. We do not train on your client data**
- ✓ **Your admin connects your provider once: OpenAI, Together, Groq, xAI, and more**

AI MADE EASY FOR YOUR BUSINESS

Walkthrough 1: Run Today's Guided Task

Scenario 1

A client document lands. The professional reply still takes too long.

- ✗ You read the PDF, then open a blank chat to draft the email.
- ✗ Copy-paste between tools. Tone drifts. Details get lost.
- ✗ Same task every week; starting from scratch each time.

Solution 1: Document-to-Email Workflow

Two connected steps, same path every time.

- ✓ 1 · Secure Document Analyzer: Summary and key points for your reply
- ✓ 2 · AI Email Automation: Professional draft ready to review and send

Summarize in about two minutes, review the draft email, then send or paste into Outlook.

Demo 1: Run Today's Guided Task

Live on the platform · About 3 minutes · Starter plan and above

- ✓ Open Secure Document Analyzer with sample client document
- ✓ Tap Continue — AI Email Automation opens with context prefilled
- ✓ Review draft, connect Microsoft 365 once, send or copy to Outlook

Walkthrough 2: Client Follow-Up

Scenario 2

Birthdays and anniversaries slip when daily client work stacks up.

- ✗ You mean to send birthday notes, but client work wins every week.
- ✗ Each email is written from scratch or copied from an old template.
- ✗ Your CRM has the dates. Turning them into send-ready drafts still takes time.

Solution 2: Client Reminder Workflow

Three steps from CSV to sent email.

- ✓ 1 · Upload CSV: Rows ready for draft generation
- ✓ 2 · Review Drafts: Edit anything before you approve
- ✓ 3 · Send: Send approved emails from your account

Review drafts, send all due reminders, or set auto-send and forget the follow-up pain.

Demo 2: Client Reminders

Live on the platform · About 2 minutes · Growth plan and above

- ✓ Open Client Relationship Reminders
- ✓ Upload your client CSV and review draft emails.
- ✓ Approve and send from Microsoft 365.

Walkthrough 3: Inbox Backlog

Scenario 3

Saved emails and replies pile up faster than you can write them.

- ✗ Leads and client threads wait in your inbox or saved folder.
- ✗ Starting each reply from scratch eats the hour you needed for client work.
- ✗ Copy from ChatGPT still means paste, fix tone, and send one at a time.

Solution 3: Bulk Email Workflow

Three steps from inbox to sent replies.

- ✓ 1 · Import: Messages queued for drafting
- ✓ 2 · Review Drafts: Edit any message before you approve
- ✓ 3 · Send: Send from Microsoft 365

Batch draft replies, approve once, send from your inbox.

Demo 3: Bulk Email

Live on the platform · About 2 minutes · Full plan and above

- ✓ Open Bulk Email Processor
- ✓ Upload saved emails or sync inbox, review AI drafts
- ✓ Approve the batch and send.
