AI MADE EASY FOR YOUR BUSINESS

The problem

Tackle the daily work that slows you down

AI built for your industry

- ✓ We augment your existing tools (AMS, carrier portals, and CRM). We do not replace them.
- ✓ Quotes, client emails, and follow-ups in clear steps, not a blank ChatGPT tab
- ✓ Same workflow every time. Enter facts once, move to the next step. No re-typing between apps
- ✓ Human review before every send. Drafts only, not autopilot.

What we solve

Time · Money · Priority

- ✓ Time: hours back on quote prep, client calls, and outreach
- ✓ Money: policies saved when lapse outreach and follow-ups go out on schedule
- ✓ Priority: finish client work that piles up because drafting takes too long

Walkthrough 1: Explain Coverage to a Client

Scenario 1

The client wants plain English. The carrier PDF is still jargon.

- ✗ Dec pages and quote summaries need a client-friendly explanation tonight.
- ✗ You compare two carriers in your head or a messy spreadsheet.
- ✗ Follow-up email is still blank when the call ends.

Solution 1: Coverage Workflow

Three steps, same path every client.

- ✓ 1 · Policy Explainer: Plain-language coverage summary
- ✓ 2 · Client Outreach Drafting: Client-ready outreach draft
- ✓ 3 · AI Email Automation: Send follow-up email or copy to Outlook

Explain coverage, compare quotes if needed, and send a follow-up in one sitting.

Demo 1: Explain Coverage to a Client

Live on the platform · About 3 minutes · Starter plan and above

- ✓ Open Explain Coverage to a Client
- ✓ Policy Explainer, Client Outreach Drafting, AI Email Automation

Walkthrough 2: Client Follow-Up

Scenario 2

Birthdays and anniversaries slip when daily client work stacks up.

- ✗ You mean to send birthday notes, but client work wins every week.
- ✗ Each email is written from scratch or copied from an old template.
- ✗ Your CRM has the dates. Turning them into send-ready drafts still takes time.

Solution 2: Client Reminder Workflow

Three steps from CSV to sent email.

- ✓ 1 · Upload CSV: Rows ready for draft generation
- ✓ 2 · Review Drafts: Edit anything before you approve
- ✓ 3 · Send: Send approved emails from your account

Review drafts, send all due reminders, or set auto-send and forget the follow-up pain.

Demo 2: Client Reminders

Live on the platform · About 2 minutes · Growth plan and above

- ✓ Open Client Relationship Reminders
- ✓ Upload your client CSV and review draft emails.
- ✓ Approve and send from Microsoft 365.

Walkthrough 3: Inbox Backlog

Scenario 3

Saved emails and replies pile up faster than you can write them.

- ✗ Leads and client threads wait in your inbox or saved folder.
- ✗ Starting each reply from scratch eats the hour you needed for client work.
- ✗ Copy from ChatGPT still means paste, fix tone, and send one at a time.

Solution 3: Bulk Email Workflow

Three steps from inbox to sent replies.

- ✓ 1 · Import: Messages queued for drafting
- ✓ 2 · Review Drafts: Edit any message before you approve
- ✓ 3 · Send: Send from Microsoft 365

Batch draft replies, approve once, send from your inbox.

Demo 3: Bulk Email

Live on the platform · About 2 minutes · Full plan and above

- ✓ Open Bulk Email Processor
- ✓ Upload saved emails or sync inbox, review AI drafts
- ✓ Approve the batch and send.
